## WHY THIS...?

Over the past few Sundays we've been doing a series on the theme "Biblical Perspectives on Sexuality". The series to date (we have 1 more to go after this Sunday) can obviously only go so far in dealing with areas that people have asked questions about. There have come many really good questions (and comments) about areas related to our subject! With the constraints around a Sunday morning of limited time, and of course the question of how appropriate it is to address certain areas, we're going to offer an open forum to address some of these "Oh so delicate" topics more.

The plan will be to have a few set topics that requests for comment have been asked for, as well as any others items the group deems topical and of relevant interest. (as time allows)

The emphasis will be on referring to the Bible as our plumb-line and pursuing a life of purity,

honesty and freedom as a disciple of Jesus!

## TOPICS:

Christians & same sex attraction

The 'Transgender agenda' - exposing the lie

Teaching kids about sexuality well, linking it to Biblical values

Pornography- Keeping ourselves & others clean (The addictive power of 'fantasy')
